

# STUDY ISLAND

## Summer on the Island

June 15, 2018

Dear Parents/Guardians,

Welcome to Study Island. Your summer passport to learning!

As you know, the Totowa School District implements Study Island as part of our K-8 grade curriculum. Since our school has a Study Island school license, our students can continue benefiting from the Study Island program all summer long! Study Island can be used from any computer that has internet access, even on a laptop by the pool!

As part of our *summer extended mathematics and language arts curriculum*, your child's teachers in grades K-7 have assigned programs from Study Island. These programs are specific to your child's needs, as well as skills aligned for each grade level. **These assignments must be completed by August 24, 2018** if your child is using the computer. After this date, the system will be rolling over information for the new school year.

We encourage students to complete the assignments online. For students without computer/internet access, teachers will distribute copies of these assignments. These students should bring their completed packets with them ***on the first day of school on September 6, 2018***. Copies will also be available throughout the summer at Washington Park School in Room 206, and Memorial School in the Main Office.

We are excited about the gains your child has made this school year and we encourage you to take advantage of this opportunity for students to retain skills mastered this year, as well as review areas of weaknesses or even access more challenging activities. Please feel free to contact Study Island at 800-419-3191 or support@studyisland.com if you have any questions. You may also contact Ms. Steinhilber at 973-956-0010, ext. 3002.

Sincerely,

Patricia Capitelli

Superintendent of Schools
