Lauren Terranova
Director of Special Education

September 7, 2023

Dear Parents/Guardians,

On Monday, September 11, 2023, students in grades two, five, seven and new students will participate in InView testing. Students will test for approximately two hours. Make-up testing will be administered accordingly.

The InView test evaluates your child's verbal reasoning, sequences, analogies, and quantitative reasoning skills. As a part of our comprehensive educational plan for your child, assessments are necessary so that we can provide a program that will advance your child both academically and socially/emotionally. While assessments are important, they are not the final indicator reflecting any child's ability or prediction of future progress and success.

Please ensure that your child receives adequate sleep and a nutritious breakfast before arriving at school. More importantly, please emphasize punctuality for your child during these test administration dates. Students who arrive late will not be permitted to enter the classroom until testing is finished.

If you have any questions regarding testing, please contact your child's principal.

Thank you,

Lauren Terranova
Director of Special Education
