Director of Special Education

September 15, 2022

Dear Parents/Guardians,

On Tuesday, October 4, students in grades two, five and new students will participate in the InView Test. Students will test for approximately two hours. Makeups will be administered accordingly.

The InView test evaluates your child's verbal reasoning, sequences, analogies, and quantitative reasoning skills. As a part of our comprehensive educational plan for your child, assessments are necessary so that we can provide a program that will advance your child both academically and socially/emotionally. While assessments are important, they are not the final indicator concerning any child's ability or prediction of future progress and success.

Please ensure that your child receives adequate sleep and receives a nutritious breakfast before arriving at school. More importantly, please emphasize punctuality for your child during these test administration dates. Students who arrive late will not be permitted to enter the classroom until testing is finished.

If you have any questions regarding testing, please call my office.

Thank you,

Lauren Terranova  
Director of Special Education
