Patricia Capitelli
Chief School Administrator

Lori Johnson
School Nurse

Dear Parents/Guardians:

Please be aware of the importance of regular medical examinations for your child/children. It is recommended that children have at least one medical examination during each developmental stage: early childhood (preschool through grade three), pre-adolescence (grade four through six), and adolescence (grade seven through twelve). These examinations should be conducted by the child's primary care provider to ensure continuity of care.

All medical physicals and updates should be forwarded to the school nurse, ensuring all medical concerns are current. Conversely, if past diagnosis' have changed and are no longer a concern the student's health record can be updated based on the physician's report.

As always if you have any questions or concerns, please feel free to call the school nurse's office at 973-956-0010 ext. 1200.

Sincerely,

Lori Johnson RN, BSN, CSN
